EDUCATION

Pune Institute of Computer Technology

Bachelor of Engineering (CGPA: 8.75)

Sep 2023 – May 2027

Pune, Maharashtra

MBBS Junior College

Higher Secondary Certificate (HSC: 74.17%)

Jun 2022 – May 2023

Ahilyanagar, Maharashtra

EXPERIENCE

MERN Stack Developer Intern

Mar 2026 – Jul 2026

LearnCraft Engineering

Pune, India

- Developed a full-stack NGO platform using **MERN** stack to streamline volunteer management and operational workflows.
- Implemented responsive frontend interfaces and integrated scalable **REST APIs** using **React**, **Node.js**, and **Express.js**.
- Designed **MongoDB** database structures and implemented secure authentication with role-based access control.
- Improved application performance through debugging, optimization, and maintaining clean **Git** version control practices.

Full Stack Developer Intern

Jun 2025 – Jul 2025

Prodigy InfoTech

Pune, India

- Developed a Student Management System using **MERN** stack with secure **JWT**-based authentication and authorization.
- Created responsive **UI/UX** components and enhanced frontend experience with optimized user interactions.
- Managed **MongoDB** database operations and implemented efficient **CRUD** functionalities for application modules.
- Improved code maintainability through debugging, testing, and collaborative **GitHub** development workflows.

PROJECTS

PackMate – AI-Powered Travel Assistant | React, Node.js, Express.js, MongoDB, GenAI

Live Demo | GitHub

- Built a **MERN** travel assistant providing **AI-powered** packing recommendations based on trip details and real-time weather.
- Integrated **Groq (Llama 3)** to generate personalized, context-aware smart packing lists for travelers.
- Implemented **JWT** authentication, trip itinerary management, budget tracking, and secure user sessions.

Swift API – Smart API Testing Tool | React, Node.js, Express.js, MongoDB, GenAI

Live Demo | GitHub

- Built a **MERN** API testing platform featuring request execution, collections, history, and workspace management.
- Integrated an **AI assistant** using **FastAPI** and **Groq LLM** for automated API error diagnosis and fix suggestions.
- Implemented **JWT** authentication, secure **REST APIs**, and structured **JSON** response parsing for testing.

Academic Engagement Portal | React, Node.js, Express.js, SQL

Live Demo | GitHub

- Built a full-stack academic portal for efficient course administration, user roles, and educational resource management.
- Designed a relational **SQL** database schema for managing users, roles, courses, and academic records efficiently.
- Developed secure backend services using **Node.js**, **Express.js**, and scalable **REST APIs** for academic operations.

TECHNICAL SKILLS

Programming Languages: C++

Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js, Tailwind CSS, Bootstrap, REST APIs

Generative AI: LLMs, OpenAI API, Groq API, LangChain, Prompt Engineering, RAG, AI Agents, ChromaDB

Databases: MongoDB, MySQL

Core CS Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems (OS), Computer Networks (CN), System Design

Tools & Platforms: Git, GitHub, VS Code, Postman, Docker, Firebase

CERTIFICATIONS

Meta: Introduction to Front-End Development – Coursera

View Certificate

Built responsive and interactive web applications using **HTML**, **CSS**, **JavaScript**, **Bootstrap**, and **React**.

Full Stack Generative and Agentic AI with Python – Udemy

View Certificate

Learned **LangChain**, **Prompt Engineering**, **RAG**, **AI Agents**, and integrated **OpenAI APIs** into full-stack applications.

LEADERSHIP EXPERIENCE

- Volunteered in **PICT NSS** rural social programs, promoting teamwork, adaptability, and project management.
- Organized **Web Dev SIG (ACM Club)**, fostering mentoring, communication, collaboration, and technical team growth.
